

**IEEE-CPMT Switzerland Chapter &
Swiss Federal Laboratories for Materials Science and Technology
(EMPA)**

**Seminar on
Reliability of Electronic Components & Systems
24. June 2013**

Call for Contributions

This year, the CPMT Switzerland Chapter in cooperation with the Swiss Federal Laboratories for Materials Science and Technology (EMPA), plans to organize a half-day seminar covering various topics within the field of reliability of electronic components and systems. The goal of this seminar is to provide a platform where people can exchange their activities, interests and solutions. For that reason we are calling for contributions from our chapter members and associates, and any other interested professionals. Based on the received feedback, we will compile a seminar agenda by selecting four to five presentations on the aforesaid topic. The seminar will kindly be hosted by EMPA in Dübendorf, Switzerland.

Topics:

- Physics of failure
- Accelerated lifetime testing
- Degradation modeling
- Reliability aspects of materials and technologies
- Reliability analysis & prediction
- System reliability & diagnostics

Submission information:

- One page abstract (PDF, Word, PPT)
- Seminar handouts will be PDF files of the presentations (no full papers or manuscripts required)
- Submission deadline: 29. April 2013
- Notification: 13. May 2013
- Submission address: see below

Location: EMPA, 8600 Dübendorf, Switzerland
Date: 24. June 2013
Time: 15:00 – 19:00 (incl. EMPA lab visit)
Web: www.ieee.ch/chapters/cpmt
www.empa.ch

Address for submission: Slavo Kicin (Slavo.Kicin@ch.abb.com, +41 58 586 80 99)

We are looking forward to receiving many interesting contributions in order to provide a seminar with technical presentations at the highest level.

Kind regards,

Hamit Duran
(Chapter Chair)
